Experience:

McDonald's, Canandaigua – Crew

April 2021 - September 2021

In my short time there I have learned almost every position from headset to grill to sandwich assembly. I have never turned down an opportunity to come in at a time I'm not scheduled for

Burger King, Canandaigua – Crew

September 2021 - Present

In my short time at BK I've worked sparingly, however they've had me close multiple times, and I've been able to help get my coworkers out on time. In this job I've had much smaller experiences, they've mostly kept me on drive thru crew, however I'm learning to keep my cool when we get busy at unexpected times (it happens a lot)

Education:

Finger Lakes Community College

August 2021 - Present

Going there for a Degree in New Media. I've already coded multiple legible websites, edited videos in which I am proud of, and I've learned a lot about adobe products already. In my first semester I already feel like I can tackle the world of media. However there are still some classes down the line that I am excited to take, so I will stick around until graduation.

Canandaigua Academy

September 2017 - June 2021

For a majority of the time there my GPA sat above 90 and rarely dipped below 85, whilst balancing many extracurriculars

Things about me you may like to have at the workplace

Very persistent

Always willing to put unscheduled time to put into working

Good at understanding techniques really quick

Very charitable (have worked a lot of non profit food work with my family)

Softwares I am able to use, including but not limited to:

Adobe Illustrator, Photoshop, Premiere Pro

Gimp

And this list will only grow!
